PROFESSIONAL SUMMARY

Results-driven Application Developer with **3.6+ years of experience** designing scalable backend systems and optimizing databases, transitioning into **Data Analytics**. Skilled in **SQL, Python, Excel, and Power BI**, with hands-on experience developing business intelligence dashboards, performing exploratory data analysis, and delivering actionable insights. Strong analytical mindset with expertise in translating business requirements into data-driven recommendations to improve operational efficiency and decision-making.

TECHNICAL SKILLS

Programming: Python, SQL

Data Analysis: Pandas, NumPy, Statistics

Visualization: Power BI, Matplotlib, Seaborn, Excel

Databases: PostgreSQL, MongoDB

Backend: Node.js, NestJS, Express.js, REST APIs, GraphQL

Cloud & Tools: AWS, Git, Jupyter Notebook, Google Colab

DATA ANALYTICS PROJECTS

FashionWave Retail Sales Performance Analysis | Power BI | SQL | Excel

- Developed an executive dashboard analyzing **₹141.6 Cr revenue** across **50 retail stores**.
- Built interactive KPI dashboards for Revenue, Profit Margin, Average Order Value, Units Sold, and Store Performance.
- Performed discount impact analysis and identified that discounts above **25%** **significantly reduced profit margins**.
- Analyzed weekday vs weekend sales trends and recommended targeted promotional campaigns to improve weekend revenue.
- Designed customer segmentation dashboards and provided business recommendations to improve profitability and customer retention.
- Created interactive reports using Power BI, DAX measures, slicers, drill-through pages, and custom KPIs.

Tools: Power BI, SQL, Excel

GlowUp Marketing Campaign ROI Analysis | Power BI

- Evaluated marketing campaign performance across digital and offline channels.
- Built dashboards measuring ROI, leads, conversions, and campaign effectiveness.
- Identified **Festival Offer Campaign** as the highest ROI contributor and highlighted underperforming campaigns requiring budget optimization.
- Recommended reallocating marketing spend toward high-converting digital campaigns to maximize return on investment.

Tools: Power BI, Excel

Boxify Customer Churn Analysis | Power BI

- Performed customer segmentation to identify high-risk churn groups.
- Analyzed customer engagement, subscription plans, and revenue impact.
- Identified that monthly subscribers and customers aged **40–60** exhibited the highest churn risk.
- Proposed retention strategies focused on increasing annual subscriptions and improving customer engagement.

Tools: Power BI, Excel

PROFESSIONAL EXPERIENCE

Application Developer

Innovatily Pvt Ltd | Mar 2023 – Jun 2025

- Developed scalable backend services using NestJS, PostgreSQL, MongoDB, and REST/GraphQL APIs.
 - Optimized SQL queries and database indexes, reducing API response times by approximately **35%**.
 - Built production-ready APIs supporting millions of requests with **99.9% system availability**.
 - Collaborated with product, QA, and DevOps teams to deliver reliable and scalable software solutions.
 - Resolved production issues and improved application performance through root cause analysis and optimization.
-

Backend Developer

Wipro Pvt Ltd | Jun 2019 – Jan 2021

- Developed and maintained backend services using Node.js and Express.js.
 - Designed and optimized REST APIs for enterprise applications.
 - Debugged production issues and improved backend performance.
 - Participated throughout the software development lifecycle, including development, testing, and deployment.
-

EDUCATION

MSc Mechanical Engineering

Staffordshire University

2017 | 56%
